GN Making Life Sound Better

Jabra GN

SPEAK2 55

Next-generation flexible speakerphone with outstanding professional audio

Technology for life's new rhythm

FULL DUPLEX AUDIO

The Speak2 Range is our first to be engineered with advanced full duplex audio, preserving the natural ebb and flow of real face-to-face interactions by allowing everyone to speak and be heard at the same time. Which means more natural conversations, and less stilted, jumpy audio. Great audio goes both ways.

MICROPHONE TECHNOLOGY

Voices are important in meetings, background noise, not so much. That's why Speak2 55 has four cutting-edge beamforming microphones (more than ever before) with state-of-the-art noise cancellation technology. They pick up sound from all directions and expertly filter out background noise. So you never miss a word.

VOICE LEVEL NORMALIZATION

People are at their most brilliant when they can be themselves. Speak2 55 uses our cutting-edge Voice Level Normalization technology to automatically equalize all voices to the same volume level, so people can speak in the way that comes naturally to them. No need to fiddle with the volume control.

OUTSTANDING AUDIO QUALITY

Our full-range 50mm speaker with wideband audio captures and delivers sound across a wide range of frequencies, so you can enjoy big, powerful sound wherever you work best, whether that's in the office, at home, or somewhere else. Go big and go home.

CERTIFICATIONS

Speak2 55 is certified for all leading virtual meeting platforms, which means it optimizes the whole experience and delivers professional call quality every time. So whether you prefer Microsoft Teams, Google Meet, Zoom, or another platform, you can rely on seamless plug-and-play connectivity and reliably brilliant meetings. Right from the get go.

DESIGN

We've given the iconic, much-loved 'puck' shape a makeover, with sleek new detailing, and a premium fabric cover. And it's small and durable enough to chuck in a bag, so you can take it with you wherever you go. Looks great, performs even better.

DURABILITY

Hybrid working might take you and your speakerphone to some unusual places, so we've given it a hybrid makeover. IP64-rated* protection from dust and water, and a smart protective pouch mean you can use it everywhere without worrying. Even if your hybrid week takes you to a different place every day.

EASE OF USE & BATTERY

Just plug-and-play and you're off faster than you can say "could you just repeat that?" And for those of you who like choice, we've got options. Use the USB cable for a direct line, or go wireless with up to 12 hours of battery life. Ready… set… go.

FUTURE-PROOF

With half the team on USB C, and the other half still using USB A, the struggle to find tech that suits everyone is real. Cut out the hunt for adapters with Speak2 55. Because it's the first in its class to have both connectors on the same cable (just like the rest of Speak2) it'll work for everyone, now and in the future. You can keep it in tip-top condition with regular firmware upgrades on Jabra Xpress and Direct software, too. Tomorrow, we're ready for ya.

SUSTAINABILITY

We consider sustainability carefully at every stage of product development. The casing of Speak2 55 is made with over 50% sustainable materials**, and has a number of built-in parts that can be repaired or replaced. Better sustainability = longer speaker life = great calls for you and your team for years to come.

MS TEAMS & UC VARIANTS

*Avoid exposing the USB cable or adapter plug to moisture or liquids and never charge or power up if the USB cable or adapter plug is wet or moist
**Sustainable materials include post-consumer recycled, post-industrial recycled or bio-based materials

HOW TO USE

1	⏻	Power on/off
2	👆	Smart button / Microsoft Teams button (MS variant)
3	📞	Answer call
4	∗	Bluetooth
5	🔉−	Volume down
6	🔇	Mute microphone
7	🔊+	Volume up
8	🔋	Battery
9	📞	End/reject call
10	✓	Status LED ring
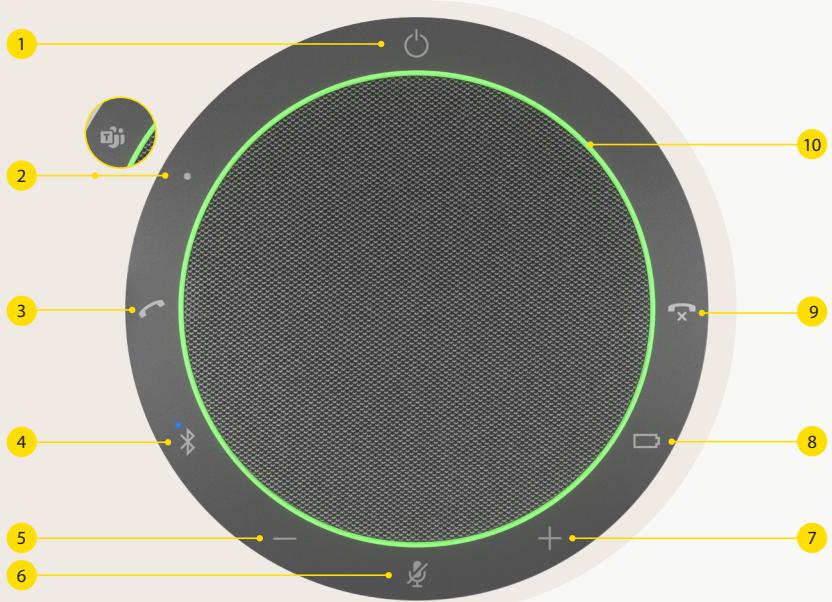

HOW TO CONNECT

Connect the Jabra Speak2 55 USB cable to any available USB C or A port on your computer. The LED ring will light up white to indicate the speakerphone is connected and powered on.

3 sec
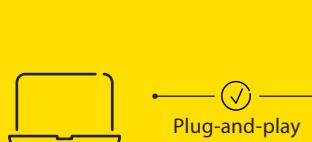

Plug-and-play

USB C and USB A connectors included

FEATURES		BENEFITS
Connectivity	USB cable	Plug-and-play connectivity to your computer with built-in USB C and USB A connectors
	Bluetooth	Easy Bluetooth 5.1 connectivity to mobile devices
	Dual Bluetooth connectiv	Connect two Bluetooth enabled devices at the same time, including mobile device and computer
